NürnbergMesse Speaks

Celebrating Acrex India 2018

The event that opened avenues and displayed new heights of successful partnerships

The awe of ACREX'18 in Bengaluru still lingers around most of us as the event set new examples of teamwork, partnerships, potentials and aspirations. The 19th edition ACREX India 2018 successfully proved to be the mega symposium that it was conceived to be.

The theme, "Rising India: Enterprising & Cool", made complete fitment for a country like India, that holds a significant 17% of global population, promises to be a thriving economy worldwide with marked growth in the infrastructure sector due to huge need and emphasis on connectivity. ACREX India 2018 aimed to comprehensively promote and support domestic manufacturing, which is the key driver for production and

supply of equipment, whilst being the torchbearer for best practices. Not only ACREX accomplished this target, it would also ensure growth in the Indian HVAC & R industry in times to come.

The entire team of ACREX, ISHRAE and NürnbergMesse is so excited and enthused to work with all zeal and energy for the next edition of ACREX in Mumbai. We strive to raise this bar even higher as we come back next year and rigorously pursue to place India as a market destination for all giant international players to participate in.

ACREX'18 Highlights

When India Rose with ACREX

ACREX India 2018, leading event in South Asia for Refrigeration & Cold Chain, Air Conditioning, Ventilation, and Intelligent Buildings, had a magnificently successful closure at the Bangalore International Exhibition Centre in Bengaluru with over **430 exhibitors**, both domestic and international, showcasing their latest products on **25,000 square meters of event area**.

The event made its mark in the city of Bengaluru between 22nd - 24th February, 2018, as the three-day exhibition provided participants with insights into the latest trends and innovations in HVAC&R, diverse building engineering services, building automation and the ever growing cold chain industry. ACREX India today has established itself as

the most important event of the entire Indian construction industry.

The theme of the event '**Rising India: Enterprising & Cool**' was aptly carried forward to encourage domestic manufacturing for production and supply of equipment. In line with the ACREX India vision of becoming the largest network and the most dynamic platform for the HVAC&R and the building construction industry, ISHRAE advocated the importance of natural resources, recycling and reusing materials alongside employing energy efficient equipment is the key to organic sustenance. Laying importance on efficient use of resources such as energy, water among other, will aid in protecting occupant's health and improving quality of life.

The dedicated pavilion on Refrigeration & Cold Chain demonstrated state-of-the-art technology in the cold

chain industry. **UN Environment** was pleased to co-organize the **Ozone 2 Climate Technology Roadshow and Industry Dialogue** at ACREX India 2018.

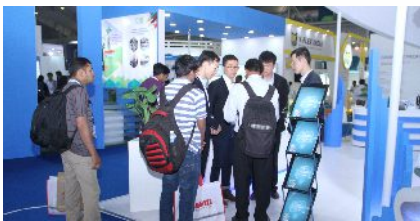

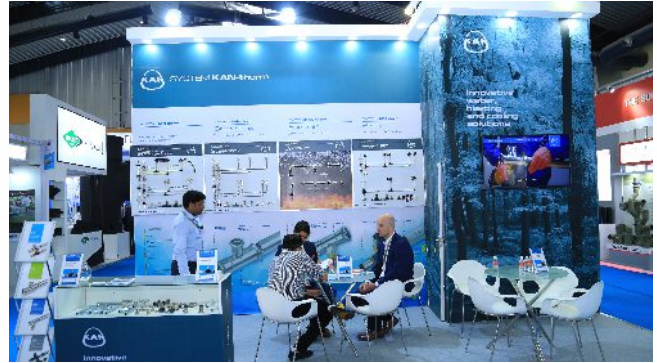

ACRONEWS

With participation of major global companies from 20 countries like Czech republic, France, Hong Kong, Vietnam, Sweden, Brazil, Belgium, Canada, Korea, Germany, Italy, Malaysia, Taiwan, UAE, United Kingdom, USA, China, Turkey and Japan;

and with country pavilions from China and Europe, ACREX India offered a 360-degree view on worldwide trends in building design. These pavilions provided a great opportunity for domestic manufacturers and SME's to ideate, network and get an understanding of current worldwide trends.

ISHRAE invited heads of more than 80 International associations - ASHRAE from USA, CAR from China, ISIB from Turkey, REHVA from France and IAQA from USA were

among the participators. The encounter of worldwide experts provided the opportunity to learn and collaborate across borders.

ACREX India 2018 was inaugurated on 22nd February by Dr. Harsh Vardhan, Union Minister of Science & Technology, Earth Sciences, Environment, Forest and Climate Change. While speaking at the inauguration, the minister aptly said, "ACREX India 2018 is a great trade show with professional visitors from around the globe. I am happy that companies exhibiting at ACREX India are developing technologies to protect the depleting ozone. We are focusing on green good deeds."

With over 30,000 visitors, ACREX hosted some pathbreaking concurrent events, the benefits of which will last for times to come. Amongst the most exciting elements of the show was the Student Quiz Competition organized for the fourth year in row sponsored by Hitachi. The quiz was primarily designed to introduce engineering students to the HVAC – R industry.

The exhibition had the encouraging presence of prominent industry leaders from companies like Samsung, LG Electronics, Kirloskar Chillers, Carrier UTC, Zamil Air Conditioners, Desiccant Rotors, Voltas, K Flex, AHRI, Eurovent Certita Certification, and the lead patronage of Blue Star, Hitachi, Daikin Airconditioning and Danfoss Industries.

The vast spectrum of visitors ranged from owners, architects, consultants, project managers, contractors, suppliers, manufacturers and facility managers to end users and government officials.

Prana, the Fully Functional Home office Exhibit at BIEC

was again a delight for both national and international visitors with more extended avenues.

Team ACREX India 2019 is working hard already as they plan the next edition in Mumbai at the Bombay Exhibition Centre, from the 28th February - 2 March 2019.

ACREX'18 Highlights

ACREX Awards of Excellence 2018

The brains of machines simplified by Mr. Victor George of Shirrang Automation and Controls

ACREX Awards of Excellence 2018 powered by Daikin was presented by ISHRAE to the most deserving individuals and organizations driving research and development work in the the HVAC sector. ISHRAE's approach was to recognize and celebrate some of the pathbreaking key initiatives in the industry. Danfoss Industries Pvt. Ltd. was sinner all the way in the Energy Saving category, with Armstrong Fluid Technology being the runners up.

Danfoss Industries Pvt. Ltd. was also the winner in the Energy Saving in Refrigeration category. Bitzer India Pvt. Ltd. won the award in Green Product category.

Smoke Solution (Denmark) was the winner for Indoor Air Quality, with Testo India Pvt. Ltd. as the runners up. The Innovation category was won by Belimo Actuators India Pvt. Ltd. and the runners up was Bitzer India Pvt. Ltd. A special mention in this category was awarded to Sanhua India Private Limited.

ACREX'18 Highlights

ACREX Hall of Fame

Reliance Corporate IT Park TC-22, Navi Mumbai was inducted in the ACREX Hall of Fame on the second day of the event i.e. 23rd February, 2018, as a joint initiative by ISHRAE and Danfoss India to recognize energy efficient infrastructure.

SearchO

www.searcho.org: The online marketplace by ISHRAE for HVAC&R and Building Services Industry

An Initiative by ISHRAE

Connect with buyers from across India

SearchO is India's only online marketplace representing professional interest of HVC&R industry members, in a digital compact fashion. It is the online business gateway for businesses in HVAC&R and the Building Services Industry, initiated by ISHRAE.

SearchO creates an instant link between the buyer and the seller. No matter what the buyer is searching for, SearchO will provide quick connect, and therefore, generate real-time buyer leads.

We invite the readers to register for this exclusive experience, of buyer and seller interaction, which transcends all local boundaries and geographies, to connect millions of buyers and sellers with each other. This single platform has the potential to generate business worth millions, by facilitating easy exchanges of HVC&R products and services, at a given point of time.

SearchO: Is that what you were searching for?

- Thousands of buyers available online
- Enquiries through Web/Call/Email/SMS
- Connect with Buyers
- Share Quotes
- List all your Products/Services
- Convert/Manage leads online

There are two options available for registering on

SearchO. One is to book the ad space and get instant buyer attention, by helping them click the best products and highlighted offers on the website. It paves way for easy navigation and instant communication link.

<Insert a screenshot from Searcho.org>

The other option is to go for the premium listing. This section includes buyers who are seeking information on top quality and advanced solutions in HVC&R category. Your products are clearly segmented, granted exclusivity, customization, and heightened visibility.

As you are much aware, there are several solutions available in the market, with a corresponding increase in the number of demand and buyers. This is an opportune time for ISHRAE to help the buyers with their exact requirement.

With your visible support, ISHRAE seeks to take SearchO and HVC&R industry to the next level.

ACREX'19 Preview

The 20th edition of ACREX India 2019

ACREX India would return to Mumbai celebrating its 20th edition, where the mega event will witness participation from more than 25 countries including Belgium, China, Czech Republic, Egypt, France, Germany, Italy, Japan, Korea, Malaysia, Saudi Arabia, Singapore, Spain, Switzerland, Taiwan, the Netherlands, UAE, UK, Ukraine and USA.

With its features, participation and consortium status, ACREX India 2019 would not only be the launch-pad for potential business-enabling collaborations, but also the live resource pool and seamless amalgamation of Integrated Building Solutions.

Concrete focus on the Building Automation Pavilion

With each successive year, the focus and encouraging response from the participation of Home and Building automation Companies has given a higher thrust to the importance of this pavilion – a unique feature and cynosure of ACREX India. Companies like Schnieder, Siemens, Delta, Messung Systems have been participating with a special endeavour on showcasing the BMS Products. ACREX India 2019 will collate energies to succesfully present a rewarding Building Automation Pavilion yet again.

Indoor Air Quality (IAQ) Pavilion

Rising concern and high level of awareness towards inadequate quality of air & air pollution has created a great need for dialogue, evolution and innovation in the indoor air quality. As the entire HVAC&R Industry is persistently working to better the solutions, ACREX India 2019 would offer this platform to companies in IAQ by creating a special pavilion to showcase & promote their products to the right target audience.

A functioning ecology of Concurrent Workshops, Seminars and Interactive Panel discussions

While ACREX India 2019 would buzz with endless opportunities for companies to showcase their products, it will additionally also be an institution in itself – thereby being a deeply educative and informative event with series of technical workshops that would complement the

exhibition. The workshops shall be conducted by esteemed national and international speakers and would provide a platform for the industry to learn and exchange knowledge and expertise on latest trends, directions and topics germane to the HVAC & R & Building Services Industry.

ACREX India 2019 - A galaxy of opportunities

- Over 500 Exhibitors
- More than 50,000 Business Visitors
- Spread over 32,000 SqM Gross Area
- Participation of Major Global Players from more than 25 Countries
- Dedicated Pavilions on: Refrigeration & Cold Chain, Building Automation (BMS) and Indoor Air Quality (IAQ)
- Concurrent Activities: Synchronised Workshops, Seminar, Interactive Panel Discussions, Students Quiz, Curtain Raiser, ACREX Awards of Excellence & ACREX Hall of Fame

NÜRNBERG MESSE

The Grand Venue in Mumbai, the commercial capital of India

Set up in 1991, the Bombay Exhibition Centre (BEC) is the largest and permanent exhibition centre in the private sector in India. BEC has successfully hosted innumerable prestigious International trade fairs and expositions over the years.

Most ideally situated along the Western Express Highway in Goregaon, within 10 minutes from airports, at a walking distance to train stations and a 20 minute drive from the heart of the city, the center is constantly buzzing with

activity and is followed by professional across industries. There are numerous hotels, entertainment activities, retail shopping & sightseeing spots in close proximity.

BEC consists of four large sized halls occupying over 45,000 sq.mtrs. of centrally air-conditioned space for conducting exhibitions. The halls are Wi-Fi enabled, have optimal height, excellent lighting, quintessential well-designed ventilation and strong flooring to withstand even the heaviest machinery.
